Education

City Engineering College

Bachelor of Engineering in Artificial Intelligence and Machine Learning

Skills & Abilities

Languages/Frameworks: JavaScript, Python, C, MySQL, MongoDB, HTML, CSS, Tailwind CSS

Full-stack web development and AI&ML enthusiast. A fundamental ability to think creatively and problem-solving skills through participation in hackathons, including winning two and actively engaging in another.

Achievements

Participation in Tech Events

I have been a part of numerous tech events, both online and offline, conducted by leading tech companies such as Google, Microsoft, Oracle, and many more. These experiences provided me with opportunities to:

- Meet and network with numerous tech professionals.
- Gain valuable insights from experts on:
 - Securing internships.
 - Starting a journey to become a well-known developer.
 - Cracking interviews at software companies.
 - Receiving various other career-related advice.

Hackathon Achievements

I have actively participated in four hackathons, proudly winning two of them. My notable achievements include:

- Wining two hackathon that where conducted in “City Engineering College”.
- Participating in a global hackathon conducted by the AngelHack community, "HackBangalore".
- Gaining significant exposure and experience from these competitions.

Skills and Certifications

To highlight my skills and deep interest in the tech field, I have:

- Achieved various certificates that validate my proficiency and commitment.
- Completed numerous courses aimed at improving my skillset and staying updated with the latest technological advancements.

Communication

Good at conveying technical concepts to diverse audiences. Skilled in collaborative teamwork, actively engaging with peers and offering valuable feedback. Experienced in presenting projects confidently.
